

Warning: Cringe Alert!

(Proceed at your own risk. Side effects may include random smiles, uncontrollable warmth, and blushing—don't say I didn't warn you! 😊)

This gift is actually several small gifts, each one meant to show how much I'm getting involved in your life—and how much I want to be. I know that the more I discover, the more I want to keep going with you. 💜

- 1.) **A Big Cat Pillow:** Because you love cats (duh) and deserve to sleep as comfortably as possible. Plus, it fits your lifestyle—whether it's sleeping, napping, or post-nap resting. 😴🐱
- 2.) **Candies:** Because you deserve nothing but sweet days ahead. Also, since you're so disciplined (I believe in you 😊), you won't eat them all at once, which means I don't have to feel guilty for giving you delicious but slightly evil treats. 🐱🍬
- 3.) **Always Together:** Not literally (unless that's on the table? 🤔), but this necklace is my way of saying that no matter where we are, you're always on my mind. And whenever we do get together, I know it's going to feel just right.
- 4.) **Our World:** This is still a work in progress (and will only continue if you give me the green light! 😊), but the idea is to create a space that's totally ours—a way to store everything special to us that goes beyond just uploading photos to Instagram or saving messages on WhatsApp. Here, we can put whatever makes us happy—whether it's our favorite music, videos, inside jokes, or voice notes you pretend not to hate. 😂
- 5.) **A Few Words:** There's one last part of this whole thing, and it's probably the most important one: something I've been wanting to say for a while. But instead of spelling it out right here, I'll leave you with this: “Wouldn't it be amazing if we keep building on what we started three months ago—something that only gets better, little by little, from here on out?”

Or, in fewer words...

Letter talking to Juan: “Juan from the real world, for goodness' sake... Just ask it!”
